

Job Title: Europe and FSU Analyst

Working For: Torchlight AI

Location: Remote

Salary: £40,000

Length of Contract: Permanent

Job Details

We are seeking an experienced geopolitical analyst who will play a key role in Torchlight AI's forward-looking analysis of security and political risk issues in Europe and the Former Soviet Union.

The successful candidate will be self-driven, with a strong desire to support rapid start-up growth and a keen interest in emerging technologies. They are likely to have previous experience in consulting, research or government, and will have focused on geopolitics and international economic affairs, particularly in Eastern Europe.

The individual will be responsible for producing high-quality analytical reporting within a small team, working closely with our Head of Europe and Head of FSU, and will be expected to analyse and report on issues spanning both regions.

We are willing to consider any remote working location that is broadly compatible with UK working hours.

Responsibilities:

- Producing high quality analysis that will empower clients to make business-critical decisions. This will range from writing short, quick-response pieces assessing the business implications of breaking developments to longer, deep-dive reports with a strategic focus. Agility, speed, and an ability to correctly identify what will be most impactful and relevant for clients are essential.
- Acting as client-facing subject matter expert. You will participate in client briefings and webinars about the region, support sales teams, and work with Torchlight analysts who are producing global or trans-regional pieces that

incorporate developments in Europe and FSU.

- You will have a key role in ensuring Torchlight's work is innovative, market-leading and disruptive. You will help to shape new offerings that effectively integrate proprietary data and eye-catching graphics to deliver an innovative and best-in-class service to clients.

Qualifications and Experience:

- **At least three years' demonstrable professional focus on Eastern Europe is the core requirement of this position.**
- **Exceptional writing skills and familiarity with the priorities of businesses and policymakers.** Keen attention to detail and superb written English are essential.
- **Strong knowledge of relevant and reliable open-source resources covering the region, and of the political risk and security intelligence analysis market.** Experience living and working in the region, and a network of contacts able to add depth to assessments and provide on-the-ground context is essential.
- A strong interest in emerging technologies and their potential applications in terms of identifying business-relevant risks, trends, and events.
- Self-confidence and the ability to speak knowledgeably to clients about the region.
- Ability to work in a fast-paced startup environment and adapt quickly to changes to output requirements and/or team structure.
- Ability to identify gaps in current analysis and suggest new solutions, methodologies and products as needed.
- Experience of completing multiple tasks simultaneously and functioning with minimal supervision.
- Ability to identify new and emerging issues, themes and trends that may impact clients.
- Ability to receive and adjust to feedback.

- Location is flexible, but the ability to meet deadlines within UK working hours is essential.

Desirable skills and experience:

- Knowledge of an eastern European language will be beneficial.
- In-depth knowledge of geopolitical and security issues in the Balkans will be preferable.
- MA level of academic knowledge is desirable.

About Torchlight

Torchlight AI is a start-up behavioral intelligence platform designed to predict emerging risk. Our platform consists of software tools for threat attribution & analysis, refined/curated data streams of threat attribution information, and an information service focused on identifying and analysing emerging risks.

Closing Date: Friday 31st March

Interview/Start Dates

We are looking for someone to start ASAP, and will begin to hold tests and interviews immediately.

Application Details

Please submit a **CV and a short cover letter** outlining your availability and area/s of expertise to careers@torchlight.ai with the reference '**Europe and FSU Analyst**' as the subject. Due to the number of applications that we typically receive, we will only be able to respond to candidates whose applications we are taking forward to the next stage.
